

MID SEMESTER EXAMINATION

ROLL NO.

2	2	0	1	3	0	1	1	9	6
---	---	---	---	---	---	---	---	---	---

Subject Code & Name: CS3403 & Object Oriented Programming and System with Java

Program/Branch/Year: B.TECH 2nd Year/ SEM IV

Time: 2Hrs

Max Marks: 60

General Instructions. Read all instructions carefully.

1. Do not write anything on the question paper except your Roll No.
2. Answers should be written in clear and legible handwriting. Neatly labeled diagrams will fetch better marks.
3. Students must clearly write the question number & sub-part of question that they are attempting.
4. This question paper consists of 3 questions and all questions are compulsory. All questions carry 20 marks each.
5. Students are expected to take about 35 minutes each for Questions 1 to 3 and Remaining 15 minutes are for reading the question paper and revision

Note: BL refers to Blooms Taxonomy Level indicating Level of Complexity of a question

Parts i) and ii) of each question are compulsory and each part carries 2 marks. Parts iii), iv) and v) carry 8 marks each and the student may attempt any 2 parts.

Q1.

i) int x = 0, y = 0, z = 0;

x = (++x + y--) * z++; what will be the value of x

[2 marks, BL-2].

- a) -2
- b) -1
- c) 0
- d) 1

ii) In java Byte, Short, Int and Long all of these are

[2 marks, BL-1]

- a) Signed
- b) Unsigned
- c) Both a and b
- d) None of above

iii) Define an Array. Classify the types of arrays in Java. Explain how arrays are created and declared in java? Give an example.

[8 marks, BL-3]

iv) Explain the loop control in java. Also write a Java program to calculate the factorial of a number. [8 marks, BL-2]

v) Describe object-oriented methodology? Explain the features of OOPs in brief. [8 marks, BL-2]

Q2.

i) If a function in java is declared private then it _____

[2 marks BL-2].

- a) Can't access standard output.
- b) Can access standard output.
- c) Can't access any output stream.
- d) Can access only the output streams.

ii) _____ method cannot be overridden.

[2 marks, BL-1].

- a) public
- b) protected
- c) final
- d) none

iii) Explain Constructor and its type. Also write a java program to implement constructor overloading in java.

[8 marks, BL-2]

iv) Explain the Inheritance and its type. Why multiple inheritance not supported in java? Also write a program of inheritance.

[8 marks, BL-2]

v) Differentiate between class, abstract class, and interface. Justify your answer with an example. [8 marks, BL-4]

Q3.

i) Find out the exception which is not type of the exception. [2 marks, BL-2]

- a) Checked Exception
- b) Unchecked Exception
- c) Runtime Exception
- d) Static Exception

ii) Find out the method which is used to pause the execution of a thread for a specific amount of time. [2 marks BL-1]

- a) sleep()
- b) pause()
- c) wait()
- d) yield()

iii) Explain the exception handling and use of try catch block with an example program.

[8 marks, BL-2]

iv) Explain the multithread, life cycle of thread with example.

[8 marks, BL-2]

v) Discuss various access protections in packages, with example. Also explain the procedure to create package in java.

[8 marks, BL-3]

END SEMESTER EXAMINATION

Even Semester 2022-2023

ROLL NO.

--	--	--	--	--	--	--	--	--	--

Subject Code & Name: CS3403 Object Oriented Programming and Systems with Java

Program/Branch/Year: B.Tech CSE /CSCQ/AIML/INT. B.TECH +MBA SEM IV JUNE 2023

Time: 3 Hrs

Max Marks: 100

1. Do not write anything on the question paper except your Roll No.
2. Answers should be written in clear and legible handwriting. Neatly labeled diagrams will fetch better marks.
3. Students must clearly write the question number & sub-part of question that they are attempting.
4. This question paper consists of 5 questions and all are compulsory. All questions carry 20 marks each.
5. Students are expected to take about 30 minutes each for Questions 1 to 5 and remaining 30 minutes are for reading the question paper and revision.

Parts i) and ii) of each question are compulsory and each part carries 2 marks. Parts iii), iv) and v) carry 8 marks each and the student may attempt any 2 parts.

Q1.

i) In java Byte, Short, Int and Long all of these are.

- a) Signed
- b) Unsigned
- c) Both a and b
- d) None of above

(2 marks)

ii) int x=0,y=0,z=0:

X= (++x + y--)*z++; what will be the value of X

- a) -2
- b) -1
- c) 0
- d) 1

(2 marks)

iii) Explain briefly about string class and discuss various methods in string class with an example.

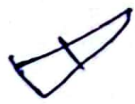

(8 marks)

iv) Explain the structure of Java program.

(8 marks)

v) Explain why Java is an object oriented programming language and comment on it.

(8 marks)

Q2.

i) How many private member functions are allowed in a class?

- a) 1
- b) 7
- c) 255
- d) As many as required

(2 marks)

ii) Which of these constructor is used an empty string object-

- a) string
- b) string(void)
- c) string(o)
- d) none of above

(2 marks)

iii) WAP to implement constructor overloading in java.

(8 marks)

iv) Explain different types of constructors in java.

(8 marks)

v) Explain the use of final keyword in java with the help of example.

(8 marks)

Q3.

i) Which of this keyword must be used to inherit a class?

- a) super
- b) this
- c) extent
- d) extends

(2 marks)

ii) A class member declared protected becomes a member of subclass of which type?

- a) Public member
- b) Private member
- c) Protected member
- d) Static member

(2 marks)

iii) Discuss in detail about creating and importing packages with an examples.

(8 marks)

iv) Explain multithreading in Java with example.

(8 marks)

Page 2 of 4

v) Explain implicit and explicit java import statements with examples.

(8 marks)

Q4.

i) The _____ method called first time an applet is loaded into memory of a computer

- a) Init()
- b) Start()
- c) Copy()
- d) Destroy()

(2 marks)

ii) Implement the listener interface and overrides its method is required to perform event handling

- a) true
- b) false

(2 marks)

iii) Describe append text into an existing file in Java using a diagram.

(8 marks)

iv) Explain the default character encoding in Java.

(8 marks)

v) Explain write to a file using File Writer Class using a program.

(8 marks)

Q5.

i) Which of these class is not related to input and output stream in terms of functioning?

- a) file
- b) writer
- c) input stream
- d) reader

(2 marks)

ii) Which of these class is not member class of java.io package?

- a) String
- b) String Reader
- c) Writer
- d) file

(2 marks)

iii) Design an applet with the label, text fields, choice, checkboxes and text area by using a program.

(8 marks)

iv) Discuss whether Get Code Base and get Document Base are same. Elaborate with example.

(8 marks)

v) WAP to design billing app using AWT.

(8 marks)
